Conker - Built to last

Founded in 2008 Conker are a small British outfit focussed on rugged mobile devices reinforced with passionate technical support and service. Based in the South East every Conker device is solely handled by us during its lifetime. Supplied from the UK. Repaired in the UK. Always UK support.

Batteries - How we test

We know how important battery life is and how skeptical you may be about battery life claims. That's why we test our batteries with the screen on and WiFi active while playing back HD video. It's really boring but it means the battery running time data on this page is reliable. We also share the recharge time. And the warranty small print about batteries being excluded? We took that line out. You can trust Conker that batteries last as long as our tablets do.

How soon can I get it?

We keep UK stock so most orders take only a few days to fulfill. From time to time of course one of our customers surprises us with a large demand. If that's you we'll give you a fair lead time, usually weeks, not months. And if you buy regularly and want us to keep you updated on stock and lead times we're happy to natter about your important matter.

What happens when I need help?

Call Ghostbusters. Or call us. Really we have humans and telephones it's ok. Sure you can email too and we have a ticket system to keep things organised but we don't force you into a self-service route. Our support is all in-house and UK based so you can easily reach a product engineer and get the answers you need.

What happens if it breaks?

Conker Relax Warranty has four easy steps. Step 1, contact us and if you're in the UK we'll even send you a return shipping label. Step 2, our courier collects your Conker so you know we're responsible for it's journey. Step 3, no quibble repair or replace. Step 4, Conker courier back to you. Normally all done within a week and we keep you updated along the way.

A warranty that re-defines total cost of ownership

RELAX + Rugged = Peace of Mind

Conker Relax is truly a bumper-to-bumper warranty that gives you complete coverage without any small print to catch you out. We understand that you want to know the total cost of ownership; no surprises, no quibbles. When you're covered with Relax you can rest assured that ANY hardware repair will be free of charge, no limits, no excess. We even include collect and return shipping for you and your customers' convenience because owning a Conker should be easy.

Relax 1 year is included absolutely FREE with all of our products. Of course you can purchase 2 year or 3 year Relax either at the time of purchase or at any time later on if you decide to. Easy.

In the comparison table below we've illustrated the differences between a typical warranty that only covers you for manufacturing defects, a paid care package e.g. AppleCare and Conker Relax.

"Care-package" insurance products all have excesses and claim limitations. Once they're used up, you're not covered and would be fully liable for repair costs at premium rates or the replacement cost in full.

Only with Conker Relax can you be guaranteed for unlimited free repairs and unlimited fixed cost replacements for any damage including fire & theft. Plus you can extend your warranty at any time.
